

Welcome to Inspiring Test Preparation's SAT Preparation.

**Here are instructions for taking the SAT at home - please read thoroughly:**

Carefully remove the bubble sheet from the book before starting the SAT. You may download a bubble sheet from this page if you prefer to print one out.

After you take the test, scan the math portion and email it as a PDF file to [kvs@katedalby.com](mailto:kvs@katedalby.com), so that when you meet with your instructor online you can discuss your work. In addition, send a scan of all your corrected bubble sheets as a separate PDF file, so your instructor knows what to review with you. If removing the test from the book makes it easier to scan the test, you may do so before or after taking the test. Test #1 starts on page 1,196 of the 2020 edition of the College Board SAT book.

If you don't have a book, you can download a test on this page. It is important that you print out the test first before taking it. Print single sided.

Links for the answer keys for all tests are on this page. You will need to grade and score the test yourself. You need to send everything - math test, graded bubble sheet, and scores - to [kvs@katedalby.com](mailto:kvs@katedalby.com) the day before you meet online for tutoring.

You can use the apps [CamScanner](#) or [Scanner for me](#) to quickly & easily send your documents.

### **Environment:**

Find a room where you will not be distracted by family members

- > You must sit in a regular chair at a table
- > Turn off any music or TV in the background
- > Get a timer or use your timer on your phone
- > Put your phone on airplane mode so you aren't distracted
- > No eating or drinking during the test. You may take breaks in between sections if you need to eat, drink, etc.
- > If you are being proctored via Zoom, set your test up in front of your computer. Instructions for logging into Zoom are in your New Appointment email for that test date.

### **Taking the test:**

Please do the following:

- > Write on the test itself as much as you want to
- > Put your name on the bubble sheet and on the first page of the document
- > Mark a "T" beside questions that eat up your time
- > Mark a "?" beside questions that you guess on
- > Circle your answer choice on the TEST.

TRANSFER your answers to the bubble sheet (don't write notes on the bubble sheet).

There is no guessing penalty, so ANSWER ALL questions.

### **TIMING** (extended time in parentheses):

#### **Section 1: Reading Comprehension – 65 minutes (98 Minutes extended time) 52 questions**

There are 5 passages of 10-11 questions each. Pace yourself accordingly.

#### **Section 2: Writing – 35 minutes (53 Minutes extended time) 44 questions**

There are 4 passages of 11 questions.

#### **Section 3: Math without Calculator -25 minutes (38 Minutes extended time) 20 questions**

There are 20 questions (5 of which are student produced responses -SPR) and you have 25 minutes to do them. Do 1-10, THEN do 16-20, then do 11-15. This will help your pacing since 11-15 are hard and eat up time.

#### **Section 4: Math with Calculator – 55 minutes (82 Minutes extended time) 38 questions**

There are 38 questions (8 SPR) and you have 55 minutes to do them. Do 1-25, THEN do 31-36 (optionally 37,38), then do 26-30.

**Your instructor will discuss strategies after reviewing your first test.** If you have any questions, contact Kate Dalby before you begin. Text/Call Kate Dalby at 703-203-5796 or email:
